SUBJECT INDEX TO VOLUME 61

(abs) = abstract (E) = editorial

Abscess, unilateral paraspinal (abs), 436
Acoustic nerve, tumors of (abs), 264
Acridine compounds, in vivo staining and retardation of tumors in mice by (abs), 287
Acromegaly presenting specific roentgenographic changes (abs), 281
Adenocarcinoma of jejunum, 680
of stomach, and co-existent benign gastric ulcer, 677
Adenoma, bronchial, without signs of bronchial obstruction, 209
Adrenal tumor of liver in child (abs), 432
Afferent fibers, visceral, investigation of (abs), 130
Alimentary function, roentgen signs of altered, following autonomic blockade with tetraethylammonium (abs), 733
Amebiasis with pulmonary involvement (abs), 122
American Board of Radiology, certification of radiation physicists, 116
inspection of training facilities in radiology by, 728
American College of Physicians, research fellowships, 862
American Radium Society, preliminary program of Thirty-first Annual Meeting, 568
Anatomy of lesser circulation, indicated by its behavior in health and disease, 1
roentgen, of oblique views of lumbar spine, 699
Aneurysm, aortic, secondary to coarctation (abs), 275
Angiocardiography, value of, in establishing diagnosis of pericarditis with effusion, 41
Angiography, cerebral, differential diagnosis of intracranial neoplasms by (abs), 265
cerebral, technical improvements in (abs), 426
direct cerebral, technique of (abs), 266
intracranial, practical serialograph for, 324
vertebral, 166
Ankle, osteochondritis dissecans of (abs), 435
Anticoagulant in blood of dogs with hemorrhagic tendency after total body exposure to roentgen rays (abs), 885
Aorta, aneurysm, secondary to coarctation (abs), 275
coarctation of, surgical treatment for (abs), 123
occurrence and diagnosis of dilatation of, distal to area of coarctation, 199
Aortography, present status of (abs), 132
Apical form of bronchopulmonary cancer, 457
Appendix, copraliths, surgical importance (abs), 432
mucocele of, roentgen features of (abs), 278
roentgen diagnosis of calculi of (abs), 432
Arachnodactyly, two case reports with etiological implications, 797
Arteriography, cerebral, in subarachnoid hemorrhage (abs), 426
of limbs (abs), 438
technical aspects of (abs), 869
Arthritis, chronic, roentgen diagnostic aspects of (abs), 436
rheumatoid, heart in (abs), 733
roentgen therapy in (abs), 583
Articulation, bilateral posttraumatic ulnocuneiform, 80
Atresia, congenital, and tracheoesophageal fistula (abs), 123
congenital, of foramina of Luschka and Magendie (abs), 263
congenital, of intestine and colon (abs), 130
Atrium, left, calcification in, in rheumatic heart disease, 202
Atrophy, familial osseous (abs), 281
Azygos lobe, its involvement in pulmonary disease, 195

Back, low, "last-straw" factor in disability of (abs), 869
Bacteria, studies on metabolism of radioisotopes by, 839
Bagasse disease of lungs (abs), 578
Banti's syndrome (abs), 433
Bartholin's glands, radium therapy for carcinoma of 517
Bartonella-infected rats, effect of roentgen rays upon, 95
BCG vaccination in all age groups (abs), 428
Bellevue Hospital, twenty-fifth anniversary of Radiation Therapy Department of, 571
Beryllium window roentgen tubes, high-intensity radiation from (abs), 589
Besnier-Boeck disease with transition into miliary tuberculosis (abs), 580
Beta irradiation, total surface, effects of (abs), 585
Betatron, techniques for application of, to medical therapy, 591
Biliary-bronchial fistula, traumatic (abs), 123
regurgitation, cholangiography and (abs), 279
Biological action of fast neutrons using summation method for lethal effects in mice, experiments on mechanism of (abs), 287
bases of associated action of hormones and roentgen rays on cancer cells of certain glands under hormonal control (abs), 588
significance of fibrinous radiomucositis of larynx (abs), 582
Blood of dogs, anticoagulant in, with hemorrhaagic tendency after total body exposure to roentgen rays (abs), 885
Boeck's disease and occurrence of minute mineral particles (abs), 579
disease, Kveim reaction in (abs), 579

disease with transition into miliary tuberculosis (abs), 580
sarcoid, progressive, associated with protracted destructive tuberculosis (abs), 580
Bone density, quantitative evaluation of, 808
giant cell tumors of (abs), 873
infection, chronic salmonella (abs), 434
lesions, erosive, associated with spinal cord injuries (abs), 434
measurement, method of determining by spot scanography, 402
metastases, occult (abs), 137
sclerosis in leukemia and in non-leukemic myelosis, 61
tumors, experiences with (abs), 136
Bones, long, in infants, double contour, cupping and spurring in roentgenograms of, 482
sesamoid, of hands and feet, 493
Book reviews
Arthritis and Related Conditions. Edited by Theodore Franklin Bach, 421
Essentials of Pathology. By Lawrence W. Smith and Edwin S. Gault, 422
A Symposium on the Use of Isotopes in Biology and Medicine, 422
The Treatment of Malignant Disease by Radium and X-Rays: Being a Practice of Radiotherapy. By Ralston Paterson, 863
Radon: Its Technique and Use. By W. A. Jennings and S. Russ, 863
Standards for the Diagnosis and Treatment of Cancer. By the Cancer Committee of the Iowa Medical Society, 864
The Thyroid and Its Diseases. By J. H. Means, 864
Brain stem, upward transtentorial herniation of, due to tumor of posterior fossa (abs), 264
Breast, female, effect of estrogenic hormone on advanced carcinoma of (abs), 286
technique of simple roentgenography of (abs), 439
Bronchi, adenoma of, without signs of bronchial obstruction, 209
Bronchial secretions, cancer cells in (abs), 120
tree, practical technique for visualization of (abs), 272
Bronchiectasis, and esophagobronchial fistula of entire right lung (abs), 427
simulating chronic bronchitis (abs), 120
Bronchiogenic carcinoma (abs), 271
Bronchitis, chronic, bronchiectasis simulating (abs), 120
Bronchogenic carcinoma, early clinical features of (abs), 120
carcinoma, emphysema an early roentgen sign of (abs), 576
carcinoma, pulmonary tuberculosis simulating (abs), 577
Bronchography in adults, technique of, 243
Bronchopulmonary cancer, apical form of, 457
Bronchospirometric findings, discrepancies between clinical-radiological and (abs), 733
Brookhaven National Laboratory nuclear reactor, 570
Brucellosis, treatment of, by total teleroentgen therapy (abs), 873
Bursitis, roentgen diagnostic aspects of (abs), 436
roentgen therapy in (abs), 583

Calcareous peritendinitis, occupational, of feet, 506
Calcification, left atrial, in rheumatic heart disease, 202
of pleura and lung (abs), 428
pancreatic (abs), 739
symmetrical, of cerebral basal ganglia (abs), 741
Calculi, appendiceal, roentgen diagnosis of (abs), 432
Calibration, thimble chamber, on soft roentgen rays, 543
Cancer, bronchopulmonary, apical form of, 457
cells in bronchial secretions (abs), 120
cells of certain glands under hormonal control, biological bases of associated action of hormones and roentgen rays on (abs), 588
of female pelvis, intravaginal roentgen therapy of (abs), 874
of prostate (abs), 876
of stomach, mass roentgen survey of gastrointestinal tract to detect, 470
principles of fast electron therapy in, 232
problems of acquired radioresistance of (abs), 442
research, availability of radioisotopes free of production costs for, 729
role of hyaluronidase in invasiveness of (E), 405
Teaching Day, 420, 861
Carcinogenic properties of radioactive fission products and of plutonium (abs), 880
Carcinoma, advanced, of female breast, effect of estrogenic hormone on (abs), 286
bronchiogenic (abs), 271
bronchogenic, early clinical features of (abs), 120
bronchogenic, emphysema an early roentgen sign of (abs), 576
bronchogenic, possibilities of roentgen diagnosis of, 753
bronchogenic, pulmonary tuberculosis simulating (abs), 577
cervical, late recurrence of, following radiation therapy (abs), 877
cutaneous, involving cartilage, roentgen treatment of, 380
effect of urethane on (abs), 286
gastric, cytologic method as aid in diagnosis of (abs), 734
gastric, detection of, by photofluorographic methods, 183, 188
human, quantitative histological analysis of radiation effects in (abs), 288

laryngeal, reactions of connective tissues after protracted fractionated irradiation of (abs), 582
of Bartholin's gland, radium therapy for, 517
of bowel, prognosis in (abs), 739
of cervix, improved methods of intravaginal roentgen and radium therapy in (abs), 875
of cervix, interstitial radium therapy in (abs), 875
of cervix, transvaginal roentgen therapy in (abs), 875
of cervix uteri, clinical diagnosis of (abs), 740
of cervix uteri, pathologic aspects of (abs), 741
of cervix uteri, physical aspects of intracavitary radium treatment of (abs), 877
of cervix uteri, role of transvaginal roentgen therapy in treatment of (abs), 285
of cervix uteri, surgical aspects of (abs), 741
of colon, gastrocolic fistula complicating (abs), 278
of lip, review of 563 cases (abs), 283
of pancreas, diagnostic criteria (abs), 432
of prostate, effects of estrogenic therapy on osseous metastases from (abs), 584
of prostate, life expectancy in (abs), 134
of rectum, relation of rectal polyps to (abs), 125
of skin, influence of dosage on success of treatment (abs), 583
of stomach (abs), 124
of tonsil (abs), 582
of transverse colon in boy (abs), 431
of uterine cervix, five year end results in treatment of (abs), 875
of uterine cervix, intracavitary radium therapy of (abs), 874
of uterine cervix, late results of radium therapy for (abs), 878
primary papillary, of ureter (abs), 132
primary sensory neuropathy with muscular changes associated with (abs), 281
simulating pulmonary tuberculosis (abs) 576
Carcinosarcoma of esophagus, 461
Cardio-esophageal relaxation as cause of vomiting in infants (abs), 266
Cartilage, cutaneous carcinoma involving, roentgen treatment of, 380
Cartilaginous tumors of hand (abs), 139
Cassette, grid-front (abs), 881
Catheterization, venous, of heart (abs), 273
Cavities, infected, demonstration of, by lipiodol, 223
Cells, malignant, quantitative analysis of direct and indirect action of roentgen radiation on (abs), 287
Cephalopelvimetry (abs), 279
Cerebellum, upward transtentorial herniation of, due to tumor of posterior fossa (abs), 264
Cerebral angiography, technical improvements in (abs), 426
arteriography in subarachnoid hemorrhage (abs), 426
tumors, experimental, irradiation of (abs), 585
Cervical disc, minor fractures of cervical laminae simulating ruptured (abs), 267
injuries, hyperextension, with normal roentgen appearances, paraplegia in (abs), 142
Cervix uteri, carcinoma, role of transvaginal roentgen therapy in treatment of (abs), 285
clinical diagnosis of carcinoma of (abs), 740
five year end results in treatment of carcinoma of (abs), 875
improved methods of intravaginal roentgen and radium therapy in carcinoma of (abs), 875
interstitial radium therapy in carcinoma of (abs), 875
intracavitary radium therapy for carcinoma of (abs), 874
late recurrence of carcinoma of, following radiation therapy (abs), 877
late results of radium therapy for carcinoma of (abs), 878
pathologic aspects of carcinoma of (abs), 741
physical aspects of intracavitary radium treatment of carcinoma of (abs), 877
surgical aspects of carcinoma of (abs), 741
transvaginal roentgen therapy in carcinoma of (abs), 875
Chest, children's, interpretation of roentgenograms of (abs), 121
lateral tomogram of, in normal subject (abs), 428
surveys, mass, medical and roentgenological aspects of, 147
Children, fractures of lower end of humerus in (abs), 138
interpretation of roentgenograms of chest of (abs), 121
roentgen treatment of infections of tonsils and post-pharyngeal lymphoid tissues in (abs), 438
uptake of radioactive iodine by normal and disordered thyroid gland in (abs), 574
Chloroma, unusual roentgen shadow in (abs), 436
Cholangiography and biliary regurgitation (abs), 279
Cholecystography, comparative study of oral and intravenous contrast substances (abs), 278
Circulation, lesser, anatomy and physiology of, as indicated by its behavior in health and disease, 1
lesser, conditions which result in increased pressure within, 26
lesser, evaluation of, as portrayed by the roentgenogram, 30
Cities, small, part time radiological practice in hospitals of, 236
Clip drip tray, new processing room accessory, 100
Clostridial infections in dogs, experimental (abs), 584

Coarctation, aortic aneurysm secondary to (abs), 275
of aorta, surgical treatment for (abs), 123
occurrence and diagnosis of dilatation of aorta distal to area of, 199
Coccidioidomycosis, early, roentgen findings in (abs), 270
Colchicine, effects of, on cornea (abs), 875
Cole, William Gregory, 1902–1948, obituary, 252, portrait, 252
Colon, atony of, investigation of (abs), 130
congenital atresia of (abs), 130
congenitally small (abs), 738
gastrocolic fistula complicating carcinoma of (abs), 278
malrotation of (abs), 130
prognosis in carcinoma of (abs), 739
transverse, carcinoma of, in boy (abs), 431
Condyles, tibial, fractures of, involving knee joint (abs), 868
Cones, malleable, for roentgen therapy, 245
Conference of health officers and public health nurses, 420
Congenital absence of humeral head (abs), 138
atresia and tracheoesophageal fistula (abs), 123
atresia of foramina of Luschka and Magendie (abs), 263
atresia of intestine and colon (abs), 130
coxa vara, treatment of (abs), 144
dislocation of hip in infancy, results of treatment of (abs), 145
duodenal obstruction (abs), 430
hydronephrosis and hydroureter (abs), 133
hypertrophic stenosis, pyloric spasm simulating (abs), 124
pneumonitis in newborn infants (abs), 578
pulmonary stenosis (abs), 122
Connective tissues, reactions of, after protracted fractionated irradiation of laryngeal carcinoma (abs), 582
Contrast media for roentgenographic diagnosis iodinated organic compounds as (abs), 586
substances, comparative study of oral and intravenous, for cholecystography (abs), 278
Convolutional markings in skull roentgenograms of patients with headache, 317
Copraliths, appendiceal, surgical importance (abs), 432
Cornea, comparison of effects of mustard, ultraviolet and roentgen radiation, and cholchicine on (abs), 875
Coxa vara, congenital, treatment of (abs), 144
Crerar Library, private library of Emil H. Grubbe given to, 730
Cysts, pericardial celomic (abs), 272
peripelvic lymphatic, of kidney (abs), 433
pulmonary, in infant, lobectomy for (abs), 427
Cytologic method as aid in diagnosis of gastric carcinoma (abs), 734
Dactylitis, tuberculous, in adult (abs), 140
David Anderson-Berry prize, 571
Deficiency diseases, small intestinal pattern in, 658
Delano, Percy Joseph, 1899–1949, obituary, 854 portrait, 854
Desoxycorticosterone acetate, treatment of radiation sickness with, 387
Diaphragm, various types of hernia of, treated surgically (abs), 126
Diodrast, spinal extradural hemangioblastoma roentgenographically visualized by, at operation (abs), 742
Dislocation, congenital, of hip in infancy, results of treatment of (abs), 145
of hip, lateral view of pelvis in examination for (abs), 146
of pisiform (abs), 137
Diverticula of foregut (abs), 738
Diverticulum, duodenal, benign ulceration within (abs), 430
intraluminal, producing intermittent duodenal obstruction or stasis, 212
of Meckel, patent omphalomesenteric duct and its relation to (abs), 128
Dogs, experimental clostridial infections in (abs), 584
Dosage calculations for various plans of intravaginal therapy (abs), 876
influence of, on success of treatment of carcinoma of skin (abs), 583
rate meter, negative feedback, using very small ionization chamber, 550
Doses, repeated low, of neutrons, effects of, on estrous cycle of white rat, 530
Drugs, pharmacological reactions of, irradiated with roentgen rays of varying wavelength, 534
Duodenal mechanism regulating motor and secretory activity of stomach (abs), 277
ulcer, roentgenographic disturbance of duodenal mechanism regulating motor and secretory activity of stomach (abs), 277
Duodenum, benign ulceration within diverticulum of (abs), 430
congenital obstruction of (abs), 430
intraluminal diverticulum and other lesions producing intermittent obstruction or stasis of, 212
regurgitation of (abs), 128
retroperitoneal perforation of (abs), 430
Dysplasia, monostotic fibrous, 354

Eastern Conference of Radiologists, 114
Edema, pulmonary, possibilities of roentgen diagnosis of, 745
Editorials
Nitrogen mustard therapy, 104
Eldwin R. Witwer, 1890–1948, 108
José Francisco Merlo Gómez, 110
Legg-Perthes' disease, 248
Hirschsprung's disease, 250

William Gregory Cole, 1902–1948, 252
The clinical and roentgenological implications of hyaluronidase, 405
Gordon E. Richards, 1885–1949, 409
René Ledoux-Lebard, 1879–1948, 412
Frank Edward Simpson, 1868–1948, 415
Gastric vascular shunts, 561
Radiation hygiene, 718
Jeremiah Fletcher Lutz, 1872–1948, 719
Robert Earl Pound, 1893–1949, 721
Intussusception, 851
Thomas S. Stewart, 1876–1949, 853
Percy Joseph Delano, 1899–1949, 854
Effects, biological, of pile radiations (abs), 879
early, of roentgen rays on ovaries of rat (abs), 586
hematological, of ionizing radiations in tolerance range (abs), 590
of repeated low doses of neutrons on estrous cycle of white rat, 530
of total surface beta irradiation (abs), 585
physiological, of ionizing radiation in animals, clinical sequence of (abs), 882
Effusion, pericarditis with, value of angiocardiography in establishing diagnosis of, 41
Electron therapy in cancer, principles of, 232
Electroshock therapy, fractures following (abs), 438
Elements, heaviest, metabolism of fission products and (abs), 587
Emphysema, early roentgen sign of bronchogenic carcinoma (abs), 576
Endometriosis as cause of intestinal obstruction (abs), 735
Enteritis, cicatrizing, 366
Enterogastrone, treatment of peptic ulcer with (abs), 734
Enzymes, effect of nitrogen mustards on (abs), 884
Epipericardial fat shadows in differential diagnosis (abs), 274
Epiphysis, treatment of slipped capital femoral (abs), 434
Epithelioma, extensive, of larynx, roentgen treatment for, 260
of eyelids, treatment of (abs), 872
of skin, treatment of (abs), 871
Erthroblastosis fetalis, clinical and roentgen manifestations of, 291
Esophagitis (abs), 573
Esophagus, carcinosarcoma of, 461
surgical management of acquired stricture of (abs), 427
Estrogenic hormone, effect of, on advanced carcinoma of female breast (abs), 286
therapy, effects of, on osseous metastases from carcinoma of prostate (abs), 584
Estrous cycle of white rat, effects of repeated low doses of neutrons on, 530
Eyelids, treatment of epithelioma of (abs), 872

Facsimile, roentgenographic, 557
Familial osseous atrophy (abs), 281
Fat shadows, epipericardial, in differential diagnosis (abs), 274
Fatigue fractures of fibula (abs), 141
Feet, occupational calcareous peritendinitis of, 506
sesamoid bones of, 493
Femur, treatment of slipped capital epiphysis of (abs), 434
Fibrin film in neurosurgery (abs), 263
Fibrosarcoma, synovial (abs), 867
Fibula, fatigue fractures of (abs), 141
Fission products, metabolism of, and heaviest elements (abs), 587
Fistula, esophagobronchial, and bronchiectasis of entire right lung (abs), 427
gastrocolic, complicating carcinoma of colon (abs), 278
neonatal gastrocolic (abs), 124
recto-urethral (abs), 432
tracheoesophageal, and congenital atresia (abs), 123
traumatic biliary-bronchial (abs), 123
Fistulas, demonstration of, by lipiodol, 223
Foramina of Luschka and Magendie, congenital atresia of (abs), 263
Foregut, diverticula of (abs), 738
Foreign body localization in soft parts (abs), 580
Fossa, posterior, upward transtentorial herniation of brain stem and cerebellum due to tumor of (abs), 264
Fracture, avulsion, of lesser tuberosity of humerus (abs), 139
of first rib (abs), 135
Fractures, fatigue, of fibula (abs), 141
following electroshock therapy (abs), 438
gunshot, of mandible (abs), 281
minor, of cervical laminae simulating ruptured cervical disc (abs), 267
of lower end of humerus in children (abs), 138
of tibial condyles involving knee joint (abs), 868
Fungi, studies on metabolism of radioisotopes by, 839

Gallbladder, classification of accessory, 671
double, 671
Ganglia, cerebral basal, symmetrical calcification of, 741
Gargoylism (abs), 870
Gastric secretion, effect of tetra-ethyl ammonium chloride on (abs), 127
vascular shunts (E), 561
Gastrocolic fistula, neonatal (abs), 124
Gastroenterology, recent advances in treatment in field of (abs), 429
Gastrointestinal tract, chronic granulomas in, caused by minute mineral particles (abs), 579

mass roentgen survey of, to detect cancer of stomach, 470
roentgenographic studies of, following section of vagus nerves for peptic ulcer (abs), 124
Glasses, trifocal, as aid to older roentgenologist, 102
Glioblastoma, case of, treated by betatron, 591
Gómez, Jose Francisco Merlo, obituary, 110
Gonadotropic function of hypophysis of mature and immature female albino rat, effect of low dosage roentgen radiation on (abs), 884
Gout, clinical, pathological and roentgenographic observations (abs), 435
report of unusual case in young man (abs), 140
Granulomas, chronic, in alimentary tract caused by minute mineral particles (abs), 579
Grubbe, Emil H., private library of, given to John Crerar Library, 730

Hand, cartilaginous tumors of (abs), 139
Hands, sesamoid bones of, 493
Headache, convolutional markings in skull roentgenograms of patients with, 317
Heart disease, rheumatic, left atrial calcification in, 202
enlargement of (abs), 275
in rheumatoid arthritis (abs), 733
rheumatic mitral valve disease without enlargement of (abs), 275
roentgen kymographic study of, in myasthenia gravis (abs), 274
simple procedure for evaluation of mobility of (abs), 732
venous catheterization of (abs), 273
Hemangioblastoma, spinal extradural, roentgenographically visualized with diodrast at operation and successfully removed (abs), 742
Hemangio-endothelioma, skeletal (abs), 134
Hemangiolipoma, extradural, Klippel-Feil's syndrome associated with compression of spinal cord by (abs) 267
Hemangioma of small intestine, with special reference to intussusception (abs), 125
primary, of skull, rare cranial tumor, 302
Hematological effects of ionizing radiations in tolerance range (abs), 590
Hematoma, subdural (abs), 426
Hematomas, association of certain, with myelencephalic blebs in house mouse, 98
Hemorrhage, subarachnoid, cerebral arteriography in (abs), 426
subepithelial, of renal pelvis simulating neoplasm (abs), 131
Hemorrhagic tendency in congestive splenomegaly (abs), 433
Hemosiderosis of lung due to mitral disease, 443
Hernia, diaphragmatic, various types of, treated surgically (abs), 126
Herniation of nucleus pulposus, complete block of lumbar spinal canal due to, 775
upward transtentorial, of brain stem and cerebellum due to tumor of posterior fossa (abs), 264
Hip, congenital dislocation of, in infancy, results of treatment of (abs), 145
dislocation, lateral view of pelvis in examination for (abs), 146
Hirschsprung's disease (E), 250
Histological changes following radiation exposures (abs), 885
HN_2, role of, as systemic adjunct to radiation therapy of certain malignant diseases, 626
Hodgkin's disease, histopathological and clinical classification with radiotherapeutic response, 369
roentgen therapy in (abs), 440
Hormone, adrenal cortical, treatment of radiation sickness with, 387
Hormones and roentgen rays, biological bases of associated action of, on cancer cells of certain glands under hormonal control (abs), 588
Hospitals, Alabama State, tuberculosis in (abs), 575
of small cities, part time radiological practice in, 236
Humeral head, congenital absence of (abs), 138
Humerus, avulsion fracture of lesser tuberosity of (abs), 139
fractures of lower end of, in children (abs), 138
Hyaluronidase, clinical and roentgenological implications of (E), 405
effect of, on absorption of subcutaneously deposited radiopaque substance, 91
Hydronephrosis, congenital (abs), 133
Hydroureter, congenital (abs), 133
Hypertension, pulmonary, causes of, 27
Hypophysis of mature and immature female albino rat, effect of low dosage roentgen radiation on gonadotropic function of (abs), 884

Ileitis, regional, of prenatal origin, 366
Ileus, atypical adynamic, apparently caused by nutritional deficiency (abs), 131
Infant, lobectomy for pulmonary cysts in (abs), 427
Infants, cardio-esophageal relaxation as cause of vomiting in (abs), 266
double contour, cupping and spurring in roentgenograms of long bones in, 482
malignant melanoma in (abs), 281
newborn, congenital pneumonitis in (abs), 578
results of treatment of congenital dislocation of hip in (abs), 145
Injuries, prevention of, caused by ionizing radiations (abs), 289
Innominate artery, anomalous, compression of trachea by (abs), 573
Instruction Courses at Cincinnati meeting, 731

Inter-American Congress of Radiology, Third, 116, 257, 420, 860
International Congress of Radiology, Sixth, 257, 420
Intervertebral disc, herniated (abs), 143
protrusion, lumbar, contralateral to side of symptoms and signs, 77
ruptured, in cervical region (abs), 143
Intestine, acute obstruction of, in typhoid fever (abs), 125
congenital atresia of (abs), 130
dyskinesia of, investigation of (abs), 130
endometriosis as cause of obstruction of (abs), 735
role of radiologist in management of patients with obstruction of (abs), 736
small, acute obstruction of (abs), 736
small, hemangioma of, with special reference to intussusception (abs), 125
small, malignant tumors of (abs), 738
small, pattern of, in sprue and similar deficiency diseases, 658
small, primary nonspecific ulcers of (abs), 431
small, rapid method of roentgen examination of, 45
small, roentgenologic study of (abs), 735
small, rupture of, complicating injury of pelvis (abs), 431
Intracranial angiography, practical serialograph for, 324
mass lesions, roentgen findings in, 762
neoplasms, differential diagnosis of, by cerebral angiography (abs), 265
tuberculomas, calcified (abs), 262
Intravaginal therapy, dosage calculations for various plans of (abs), 876
Intussusception (E), 851
hemangioma of small intestine, with special reference to (abs), 125
Inverse square law, application of, to oil immersed tubes (abs), 588
Iodinated organic compounds as contrast media for roentgenographic diagnoses (abs), 586
Ionization chamber, very small, negative feedback dosage rate meter using, 550
Ionizing radiation in animals, clinical sequence of physiological effects of (abs), 882
radiations in tolerance range, hematological effects of (abs), 590
Irradiation, beta, effects of total surface (abs), 585
of experimental cerebral tumors (abs), 585
protracted fractionated, of laryngeal carcinoma, reactions of connective tissues after (abs), 582
spray, treatment of polycythemia by (abs), 284
Isotopes and radiation hazards (abs), 288
in clinical and experimental medicine (abs), 879
radioactive, study of peripheral vascular disease with (abs), 289
use of, in surgical research (abs), 288

Jejunum, adenocarcinoma of, 680

Kaposi's sarcoma, 511
Keloids, treatment of (abs), 872
Kidney pelvis, subepithelial hemorrhage of, simulating neoplasm (abs), 131
peripelvic lymphatic cysts of (abs), 433
Klippel-Feil's syndrome associated with compression of spinal cord by extradural hemangiolipoma (abs), 267
Knee joint, fractures of tibial condyles involving (abs), 868
roentgen diagnosis of pigmented villonodular synovitis and synovial sarcoma of (abs), 435
Kveim reaction in Boeck's disease (abs), 579

Laminae, cervical, minor fractures of, simulating ruptured cervical disc (abs), 267
Larynx, biological significance of fibrinous radiomucositis of (abs), 582
irradiated, late changes in mucous membrane of (abs), 439
reactions of connective tissues after protracted fractionated irradiation of carcinoma of (abs), 582
roentgen treatment for extensive epithelioma of, 260
Latex cap for radon ointment treatment (abs), 584
Ledoux-Lebard, René, 1879–1948, medal of, 414
obituary, 412
portrait, 412
Legg-Perthes' disease (E), 248
Letterer-Siwe disease (abs), 868
Leucoderma, treatment of (abs), 872
Leukemia, bone sclerosis in, 61
chronic myelogenous (abs), 873
effect of urethane on (abs), 286
Leukemias (abs), 581
Limbs, arteriography of (abs), 438
Lip, carcinoma, review of 563 cases (abs), 283
Lipiodol, demonstration of sinus tracts, fistulas and infected cavities by, 223
Lipochondrodystrophy (abs), 870
Liver, adrenal tumor of, in child (abs), 432
anomalous lobe of, 258, 260
Lobectomy for pulmonary cysts in infant (abs), 427
Localization, foreign body, in soft parts (abs), 580
Los Angeles Radiological Society, 260
Lung, calcification of (abs), 428
entire right, esophagobronchial fistula and bronchiectasis of (abs), 427
hemosiderosis of, due to mitral disease, 443
vascular structure of, 5
Lungs, absorption of radon through skin and exhalation through (abs), 589
amebiasis with involvement of (abs), 122
bagasse disease of (abs), 578
congenital stenosis of (abs), 122
function of, 23

function of, following pneumothorax (abs), 577
involvement of azygos lobe in disease of, 195
lobectomy for cysts in, in infant (abs), 427
metastasis to, possibilities of roentgen diagnosis, 751
peripheral vascular disease in, 17
sarcoidosis of, early roentgen findings (abs), 268
Lutz, Jeremiah Fletcher, 1872–1948, obituary, 719
portrait, 719
Lymphoblastoma, evaluation of differences in sensitivity to roentgen irradiation of different types (abs), 439
Lymphomas (abs), 581

Malignant disease, effect of urethane on (abs), 286
diseases, nitrogen mustard as systemic adjunct to radiation therapy of, 626
growth, relation between radiation effects, cell viability and induced resistance to (abs), 881
Malrotation of colon (abs), 130
Mandible, gunshot fractures of (abs), 281
Marfan's syndrome, 797
Measurement, bone, method of determining, by spot scanography, 402
depth dose, for 250 kv. roentgen rays, 397
Measurements, low-absorption roentgen-ray, from 500 to 1,000 kilovolts (abs), 588
Mechanism of biological action of fast neutrons using summation method for lethal effects in mice (abs), 287
Medical therapy, techniques for application of betatron to, 591
Medicine, clinical and experimental, isotopes in (abs), 879
Melanoma, malignant, in infancy (abs), 281
prepubertal, of skin (abs), 870
Melorheostosis, interesting case of (abs), 135
Meningiomas, spinal, diagnosis of, by myelography, 683
Meningocele, intrathoracic, Recklinghausen's neurofibromatosis associated with (abs), 742
Metabolism of fission products and heaviest elements (abs), 587
of radioisotopes, studies on, by various fungi and bacteria, 839
tissue, effect of nitrogen mustards on (abs), 884
Metastases, occult bone (abs), 137
osseous, from carcinoma of prostate, effects of estrogenic therapy on (abs), 584
Metastasis to lungs, possibilities of roentgen diagnosis of, 751
Microarteriography (abs), 883
Microcolon (abs), 738
Microroentgenography, medical, biological and industrial applications of (abs), 881
Miller-Abbott tube, use of, in patients with intestinal obstruction (abs), 736
Mineral particles, minute, chronic granulomas in alimentary tract caused by (abs), 579
Mitral disease, hemosiderosis of lung due to, 443
valve disease, rheumatic, without cardiac enlargement (abs), 275
Mouse, association of certain hematomas with myelencephalic blebs in, 98
Mucocele of appendix, roentgen features of (abs), 278
Mucosa, prolapsed gastric, roentgen diagnosis of, 784
Mucosal deformities of greater curvature of stomach (abs), 429
Mucous membrane of irradiated larynx, late changes in (abs), 439
Mumps, roentgen manifestations of pancreatitis complicating, 219
Muscular changes, primary sensory neuropathy with, associated with carcinoma (abs), 281
Mustard, effect of, on cornea (abs), 875
nitrogen, effect of, on enzymes and tissue metabolism (abs), 884
nitrogen, role of, as systemic adjunct to radiation therapy of certain malignant diseases, 626
nitrogen, therapy (E), 104
Myasthenia gravis, roentgen kymographic study of heart in (abs), 274
Myelencephalic blebs in house mouse, association of certain hematomas with, 98
Myelography, diagnosis of spinal meningiomas and schwannomas by, 683
discrepancies in (abs), 280
pantopaque (abs), 280
value of, in lumbar discogenic disease, 77
Myelosis, non-leukemic, bone sclerosis in, 61
Myositis ossificans, traumatic, roentgen therapy in (abs), 284

Necrosis, radiation (abs), 282
Neoplasm, primary benign, of ureter (abs), 133
subepithelial hemorrhage of renal pelvis simulating (abs), 131
Neoplasms, intracranial, differential diagnosis of, by cerebral angiography (abs), 265
Nerves, vagus, roentgenographic studies of gastrointestinal tract following section of, for peptic ulcer (abs), 124
Neuroarthropathy, paraplegic, 475
Neuroblastoma (abs), 129
Neurofibroma of prostate gland (abs), 133
Neurofibromatosis, Recklinghausen's, associated with intrathoracic meningocele (abs), 742
Neuropathy, primary sensory, with muscular changes associated with carcinoma (abs), 281
Neurosurgery, fibrin film in (abs), 263
Neutrons, effects of repeated low doses of, on estrous cycle of white rat, 530
fast, experiments on mechanism of biological

action of, using summation method for lethal effects in mice (abs), 287
Nuclear reactor at Brookhaven National Laboratory, 570
Nucleus pulposus, complete block of lumbar spinal canal due to herniation of, 775
Nutritional deficiency, atypical adynamic ileus apparently caused by (abs), 131

Obstruction, acute, of small bowel (abs), 736
congenital duodenal (abs), 430
intestinal, endometriosis as cause of (abs), 735
role of radiologist in management of patients with (abs), 736
Omphalomesenteric duct, patent, and its relation to diverticulum of Meckel (abs), 128
Oncology, course on, 862
Osgood-Schlatter disease (abs), 867
Osseous atrophy, familial (abs), 281
metastases from carcinoma of prostate, effects of estrogenic therapy on (abs), 584
Ossification centers, unfused, associated with pain in the adult, 341
Ossifications, soft tissue, associated with spinal cord injuries (abs), 434
Osteochondritis dissecans of ankle (abs), 435
of spine, etiology of (abs), 868
Osteogenesis imperfecta tarda, 690
Osteopetrosis (abs), 134
Ovarian pain and insufficiency, syndrome of (abs), 741
tissue, importance of conserving (abs), 741
Ovaries of rat, early effects of roentgen rays on (abs), 586

Pain, unfused ossification centers associated with, in adult, 341
Palate, mixed tumors of, 82
Pancoast Lecture, 1947, 743
Pancreas, calcification of (abs), 739
diagnostic criteria of carcinoma of (abs), 432
Pancreatitis, complicating mumps, roentgen manifestations of, 219
Pantopaque myelography, statistical survey of 200 operative cases undergoing (abs), 280
Paraplegia in cervical spine injuries (abs), 142
in hyperextension cervical injuries with normal roentgen appearances (abs), 142
Paraplegic neuroarthropathy, 475
Pelvimetry, roentgen, elastic ruler for (abs), 584
Pelvis, female, intravaginal roentgen therapy of cancer of (abs), 874
lateral view of, in examination for hip dislocation (abs), 146
rupture of small complicating injury of (abs), 431
Pennsylvania Radiological Society, 420
Peptic ulcer, co-existent benign, and adenocarcinoma of stomach, 677
effect of tetra-ethyl ammonium chloride on acidity in (abs), 127
produced experimentally by vascular ligation (abs), 127
roentgenographic studies of gastrointestinal tract following section of vagus nerves for (abs), 124
treatment of, with enterogastrone (abs), 734
vagotomy in treatment of (abs), 126; (abs), 127
Pericardial celomic cysts (abs), 272
Pericarditis with effusion, value of angiocardiography in establishing diagnosis of, 41
Peripheral vascular disease in lungs, 17
Peritendinitis, occupational calcareous, of feet, 506
Pharmacological reactions of sera and drugs irradiated with roentgen rays of varying wavelength, 534
Photofluorographic methods, detection of gastric carcinoma by, 183, 188
Physicists, radiation, certification of, by American Board of Radiology, 116
Physics, modern, symposium on, 862
Physiology of lesser circulation, indicated by its behavior in health and disease, 1
Pisiform, dislocation of (abs), 137
Pleura, calcification of (abs), 428
Pleural effusion, possibilities of roentgen diagnosis of, 747
Plutonium, carcinogenic properties of (abs), 880
Pneumocholecystitis, acute (abs), 128
Pneumoconiosis, hemosiderosis of lung due to mitral disease simulating, 443
Pneumonia associated with acute salmonellosis (abs), 577
possibilities of roentgen diagnosis of, 747
rheumatic (abs), 268
unresolved, an exclusion diagnosis, 335
Pneumonitis, congenital, in newborn infants (abs), 578
Pneumothorax, pulmonary function following (abs), 577
Polycythemia vera, treatment of, by spray irradiation (abs), 284
Polyps, rectal (abs), 125
Pound, Robert Earl, 1893–1949, obituary, 721
portrait, 721
Prenatal origin, regional ileitis of, 366
Processing room accessory, new—clip drip tray, 100
Projector, portable, for roentgenograms, 847
Prostate gland, cancer of (abs), 876
carcinoma of, life expectancy in (abs), 134
effects of estrogenic therapy on osseous metastases from carcinoma of (abs), 584
giant, without symptoms (abs), 133
Pseudarthrosis in lumbosacral spine (abs), 144
Pyelography, intravenous, range of usefulness of (abs), 279
Pylorus, spasm of, simulating congenital hypertrophic stenosis (abs), 124
Pyuria, sterile, 711

Radiation, cross, simultaneous (abs), 580
doses received by skin of patient during routine diagnostic roentgen examination (abs), 286
effects in human carcinomas, quantitative histological anzlysis of (abs), 288
exposures, histological changes following (abs), 885
hazards from isotopes (abs), 288
high-intensity, from beryllium window roentgen tubes (abs), 589
hygiene (E), 718; 726
necrosis (abs), 282
parasitic, study of quality and origin of, from target of roentgen tube (abs), 589
protection, use for, of gloves laden with thorium oxide (abs), 884
sickness, treatment of, with adrenal cortical hormone, 387
Therapy Department of Bellevue Hospital, twenty-fifth anniversary of, 571
therapy of malignant diseases, role of nitrogen mustard as systemic adjunct to, 626
Radiations, ionizing, hematological effects of, in tolerance range (abs), 590
ionizing, tolerance dose and prevention of injuries caused by (abs), 289
pile, biological effects of (abs), 879
Radioactive decay, slide rule calculations of (abs), 880
fission products, carcinogenic properties of (abs), 880
iodide, accumulation of, by thyroid gland in normal and thyrotoxic subjects (abs), 881
iodine, uptake of, by normal and disordered thyroid gland in children (abs), 574
Radioautographs, preparation of, of thyroid tumors, for study at high magnification (abs), 574
Radioiodine, distribution in animal body of organisms containing, 839
in therapy and diagnosis (abs), 879
partial destruction of rat thyroid by large doses of, 731
Radioisotopes as tracers, basic courses in techniques of using, 570
availability of, free of production costs for cancer research, 729
studies on metabolism of, by various fungi and bacteria, 839
Radiological practice, part time, in hospitals of small cities, 236
Radiologist, role of, in management of patients with intestinal obstruction (abs), 736
Radiologists, Eastern Conference of, 114
Radiology, inspection of training facilities in, by American Board of Radiology, 728
Sixth International Congress of, 257, 420
Third Inter-American Congress of, 116, 257, 420, 860
Radiomucositis, fibrinous, of larynx, biological significance of (abs), 582
Radiopaque sponges, roentgen recognition of, 706
substance, subcutaneously deposited, effect of hyaluronidase on absorption of, 91
Radiophosphorus in therapy and diagnosis (abs), 879
Radon, absorption of, through skin and its exhalation through lungs (abs), 589
ointment treatment, latex cap for (abs), 584
Rat, early effects of roentgen rays on ovaries of (abs), 586
white, effects of repeated low doses of neutrons on estrous cycle of, 530
Rats, effect of roentgen rays upon *Bartonella*-infected and normal, 95
Rectum, carcinoma of, relation of rectal polyps to (abs), 125
polyps of (abs), 125
Research fellowships, American College of Physicians, 862
Respiratory mechanics, studies on, 637
Reticuloendotheliosis, systemic aleukemic (abs), 868
Retrogastric soft tissues, midline, procurement and critical appraisal of width diameter of, 56
Rheumatic disease, pathology of (abs), 436
mitral valve disease without cardiac enlargement (abs), 275
pneumonia (abs), 268
Rheumatoid arthritis, heart in (abs), 733
spondylitis (abs), 437
Rhinopharynx, roentgen diagnosis of malignant tumors of (abs), 427
Rib, first, fracture of (abs), 135
Ribonucleic acid synthesis, inhibition of, in tumor tissue by irradiation with roentgen rays (abs), 885
Richards, Gordon E., 1885–1949, obituary, 409
portrait, 409
Rochester Roentgen Ray Society, 260
Rocky Mountain Radiological Society, program of 1949 meeting, 859
Roentgen anatomy of oblique views of lumbar spine, 699
diagnosis, possibilities and limitations of, 743
examination of small intestine, rapid method of, 45
film, negative, method of roentgen-ray reproduction (abs), 881
kymographic study of heart in myasthenia gravis (abs), 274
pelvimetry, elastic ruler for (abs), 584
radiation, effects of, on cornea (abs), 875
radiation, low dosage, effect of, on gonadotropic function of hypophysis of mature and immature female albino rat (abs), 884
radiation, quantitative analysis of direct and indirect action of, on malignant cells (abs), 287

-ray measurements, low-absorption, from 500 to 1,000 kilovolts (abs), 588
-ray reproduction of negative roentgen film (abs), 881
rays and hormones, biological bases of associated action of, on cancer cells of certain glands under hormonal control (abs), 588
rays, anticoagulant in blood of dogs with hemorrhagic tendency after total body exposure to (abs), 885
rays, early effects of, on ovaries of rat (abs), 586
rays, effect of, upon *Bartonella*-infected and normal rats, 95
rays, high energy, appraisal of risks of, 592
rays, histological and histochemical study of skin of guinea pig treated with (abs), 886
rays of varying wavelength, pharmacological reactions of sera and drugs irradiated with, 534
rays, soft, thimble chamber calibration on, 543
rays, 250 kv., depth dose measurements for, 397
recognition of radiopaque sponges, 706
therapy, effect of, on tissue reactions to fibrin film (abs), 263
therapy, malleable cones for, 245
tube, study of quality and origin of parasitic radiation from target of (abs), 589
tubes, high-intensity radiation from beryllium window (abs), 589
tubes, oil-immersed, application of inverse square law to (abs), 588
Roentgenograms, evaluation of lesser circulation as portrayed by, 30
of skull, convolutional markings in, of patients with headache, 317
portable projection for, 847
rapid accurate method for reproducing, at distance via wire or radio transmission, 577
stereoscopic, simple, inexpensive set of prisms for viewing, 715
Roentgenographic diagnosis, iodinated organic compounds as contrast media for (abs), 586
facsimile, 557
Roentgenography, monochromatic, medical, biological and industrial applications of (abs) 881
technique of simple breast (abs), 439
Roentgenologist, older, trifocal glasses as aid to, 102
Roentgenology, value of, in prognosis of minimal tuberculosis, 153
Ruler, elastic, for roentgen pelvimetry (abs), 584
Rupture, spontaneous, of cerebral ventricles (abs), 264

Salmonella bone infection, chronic (abs), 434
Salmonellosis, acute, pneumonia associated with (abs), 577
Samuel Freedman Lectures, 420
Sarcoid (abs), 579
progressive Boeck's, associated with protracted destructive tuberculosis (abs), 580
Sarcoidosis (abs), 578
pulmonary, early roentgen findings (abs), 268
Sarcoma, Kaposi's, 511
of uterus, 830; (abs), 876
synovial, of knee joint, roentgen diagnosis (abs), 435
Scanography, spot, method of determining bone measurement, 402
Schwannomas, spinal, diagnosis of, by myelography, 683
Sclerosis, bone, in leukemia and in non-leukemic myelosis, 61
Semilunar bone, unstable (abs), 137
Sera, pharmacological reactions of, irradiated with roentgen rays of varying wavelength, 534
Serialograph, practical, for intracranial angiography, 324
Sesamoid bones of hands and feet, 493
Shoulder, painful (abs), 137
Siderosis, welders', clearing of roentgen shadows in (abs), 119
Simpson, Frank Edward, 1868–1949, obituary 415
portrait, 415
Sinus tracts, demonstration of, by lipiodol, 223
Skeleton, hemangio-endothelioma of (abs), 134
Skin, absorption of radon through, and exhalation through lungs (abs), 589
carcinoma, influence of dosage on success of treatment (abs), 583
of guinea pig treated with roentgen rays, histological and histochemical study of (abs), 886
prepubertal melanoma of (abs), 870
radiation doses received by, during routine diagnostic roentgen examination (abs), 286
treatment of epitheliomas of (abs), 871
Skull, convolutional markings in roentgenograms of, of patients with headache, 317
primary hemangioma of, 302
Spinal block, differential (abs), 130
canal, lumbar, complete block of, due to herniation of nucleus pulposus, 775
cord, compression of, by extradural hemangiolipoma, Klippel-Feil's syndrome associated with (abs), 267
cord, erosive bone lesions and soft tissue ossifications associated with injuries of (abs), 434
Spine, cervical, paraplegia in injuries of (abs), 142
cervical, ruptured intervertebral disc in region of (abs), 143
etiology of osteochondritis of (abs), 868
extradural hemangioblastoma of, roentgenographically visualized with diodrast at operation and successfully removed (abs), 742
lumbar, roentgen anatomy of oblique view of, 699
lumbosacral, pseudarthrosis in (abs), 144

meningiomas and schwannomas of, diagnosis by myelography, 683
SPLENOMEGALY, congestive, hemorrhagic tendency in (abs), 433
SPONDYLITIS, ankylosing, early roentgen diagnosis of (abs), 141
rheumatoid (abs), 437
SPONDYLOLISTHESIS, etiology and frequency of, and its precursors (abs), 437
SPONGES, radiopaque, roentgen recognition of, 706
SPRUE, small intestinal pattern in, 658
STENOSIS, congenital hypertrophic, pyloric spasm simulating (abs), 124
congenital pulmonary (abs), 122
STEWART, THOMAS S., 1876–1949, obituary 853
STOMACH, adenocarcinoma of, and co-existent benign gastric ulcer, 677
carcinoma of (abs), 124
cytologic method as aid in diagnosis of carcinoma of (abs), 734
detection of carcinoma of, by photofluorographic methods, 183, 188
duodenal mechanism regulating motor and secretory activity of (abs), 277
mass roentgen survey of gastrointestinal tract to detect cancer of, 470
mucosal deformities of greater curvature of (abs), 429
procurement and critical appraisal of width diameter of midline retrogastric soft tissues, 56
prolapsed mucosa of, roentgen diagnosis, 784
simultaneous roentgenographic and gastroscopic examination of (abs), 277
vascular shunts in (E), 561
STREPTOMYCIN in miliary tuberculosis (abs,) 575
STRICTURE, acquired, of esophagus, surgical management of (abs), 427
SURGICAL research, use of isotopes in (abs), 288
SYNOVITIS, pigmented villonodular, of knee joint, roentgen diagnosis (abs), 435

TECHNIQUE, improvements in, in cerebral angiography (abs), 426
of bronchography in adults, 243
of direct cerebral angiography (abs), 266
of simple breast roentgenography (abs), 439
practical, for visualization of bronchial tree (abs), 272
rapid method of roentgen examination of small intestine, 45
TECHNIQUES for application of betatron to medical therapy, 591
of using radioisotopes as tracers, basic courses in, 570
TELECURIETHERAPY, results in mixed tumors of palate treated by, 82
TELEROENTGEN therapy, treatment of brucellosis by (abs), 873
TESTICLE, treatment of malignant tumors of (abs), 441
tumors of (abs), 285
TETRA-ETHYL AMMONIUM chloride, effect of, on gastric secretion and acidity in peptic ulcer (abs), 127
roentgen signs of altered alimentary function following autonomic blockade with (abs), 733
THIAMINE CHLORIDE, atypical adynamic ileus apparently caused by deficiency in (abs), 131
THIMBLE CHAMBER calibration on soft roentgen rays, 543
THIOCYANATE, effects of, on discharge of radioactive iodine from thyroid gland (abs), 881
THORAX See CHEST
THORIUM OXIDE, on use for radiation protection of gloves laden with (abs), 884
THYMONUCLEIC ACID synthesis, inhibition of, in tumor tissue by irradiation with roentgen rays (abs), 885
THYROID GLAND, accumulation of radioactive iodide by, in normal and thyrotoxic subjects (abs), 881
in children, uptake of radioactive iodine by normal and disordered (abs), 574
of rat, partial destruction of, by large doses of radioiodine, 731
preparation of radioautographs of tumors of, for study at high magnification (abs), 574
THYROIDITIS, subacute, and its treatment, 826
TISSUE reactions to fibrin film, effect of roentgen therapy on (abs), 263
TISSUES, post-pharyngeal lymphoid, roentgen treatment of infections of (abs), 438
retrogastric soft, procurement and critical appraisal of width diameter of midline, 56
TOMOGRAM, lateral thoracic, in normal subject (abs), 428
TONSILS, carcinoma of (abs), 582
roentgen treatment of infections of (abs), 438
TORULOSIS, roentgen findings in (abs), 269
TRACHEA, compression of, by anomalous innominate artery (abs), 573
TRACHEOESOPHAGEAL fistula and congenital atresia (abs), 123
TUBERCULIN test, quantitative, its significance in diagnosis of tuberculosis (abs), 575
TUBERCULOMAS, calcified intracranial (abs), 262
TUBERCULOSIS, acute miliary, possibilities of roentgen diagnosis of, 750
BCG vaccination in all age groups (abs), 428
chronic, possibilities of roentgen diagnosis of, 749
control, recent developments in (abs), 575
experience of United States Army in World War II (abs), 575
in Alabama State hospitals (abs), 575
medical and roentgenological aspects of mass chest surveys in, 147

miliary, Besnier-Boeck disease with transition into (abs), 580
miliary, streptomycin in (abs), 575
minimal, value of roentgenology in prognosis of, 153
program of Veterans Administration (abs), 574
protracted destructive, progressive Boeck's sarcoid associated with (abs), 580
pulmonary, carcinoma simulating (abs), 576
pulmonary, minimal, bronchial adenoma without signs of bronchial obstruction concomitant with, 209
pulmonary, reasons for common anatomic location of (abs), 119
pulmonary, simulating bronchogenic carcinoma (abs), 577
results and experiences from mass examinations for, in Copenhagen 1946 (abs), 428
significance of quantitative tuberculin test in diagnosis of (abs), 575
Tuberosity, lesser, of humerus, avulsion fracture of (abs), 139
Tuberculous dactylitis in adult (abs), 140
Tumor, adrenal, of liver in child (abs), 432
of posterior fossa, upward transtentorial herniation of brain stem and cerebellum due to (abs), 264
rare cranial, primary hemangioma of skull, 302
tissue, inhibition of ribo- and thymo-nucleic acid synthesis in, by irradiation with roentgen rays (abs), 885
Tumors, bone, experiences with (abs), 136
cartilaginous, of hand (abs), 139
experimental cerebral, irradiation of (abs), 585
giant cell, of bone (abs), 873
in mice, in vivo staining and retardation of, by acridine compounds (abs), 287
malignant, of rhinopharynx, roentgen diagnosis of (abs,) 427
malignant, of small intestine (abs), 738
malignant, of testis, treatment of (abs), 441
mixed, of palate, 82
of acoustic nerve (abs), 264
of testicle (abs), 285
thyroid, preparation of radioautographs of, for study at high magnification (abs), 574
Typhoid fever, acute intestinal obstruction in (abs), 125

Ulceration, benign, within duodenal diverticulum (abs), 430
Ulcers, primary nonspecific, of small intestine (abs), 431
Ulnocuneiform articulation, bilateral posttraumatic, 80
Ultraviolet radiation, effects of, on cornea (abs), 875
United States Army, tuberculosis experience of, in World War II (abs), 575
Ureter, primary benign neoplasm of (abs), 133
primary papillary carcinoma of (abs), 132
Urethane, effect of, on malignant diseases (abs), 286
Uterus, sarcoma of, 830; (abs), 876

Vagotomy in treatment of peptic ulcer (abs), 126; (abs), 127
Vascular disease, peripheral, in lungs, 17
disease, peripheral, study of, with radioactive isotopes (abs), 289
ligation, gastric ulcers produced experimentally by (abs), 127
Ventricles, cerebral, spontaneous rupture of (abs), 264
Vertebral angiography, 166
Veterans Administration, tuberculosis program of (abs), 574
Vomiting in infants, cardio-esophageal relaxation as cause of (abs), 266

Welders' siderosis, clearing of roentgen shadows in (abs), 119
Witwer, Eldwin R., 1890–1948, obituary, 108
